A complete list of validated titles, in alphabetical order, used for preceding Galaxy levels. Or you may send the signed Retired Title Listing sheets from the preceding Galaxies or Diamonds.

Exhibitions listing: use the format as illustrated on page 3, Part One. Use only one side of each page. Data on the back of the paper will not be considered. Refer to exhibitions by their official names as listed in the PSA Journal.

Titles listing: use the format as illustrated on page 3, Part Two. Use only one side of each page. Data on the back of the paper will not be considered.

Published catalogs or printed acceptance lists are required for acceptance verification.

RECOMMENDATIONS:

ALWAYS QUICKLY CHECK YOUR ACCEPTANCES IN CATALOGS FOR CORRECTNESS. It is always the responsibility of the entrant to insure his data are correct in the catalog. Notify the exhibition chairman or secretary immediately when you find an error. The sooner the better.

Indicate the whereabouts of your acceptances, if they are misplaced in catalogs, to eliminate disqualifications

Titles must correspond to the printed version in catalogs (except for obvious typographical errors), especially regarding numbers at the end of titles. Otherwise, all titles of the same base name without numbers will be disqualified. (Titles without number or letter appendages are preferred.) Correspondence to the Galaxy Director from exhibitions with errors in their catalogs is necessary for title verification.

It is a good practice to include a few more titles with necessary acceptances than are needed in case of errors or late exhibition data. If not used, they are eligible for the next award level.

Report cards (paper and email versions) will not be accepted in lieu of official catalog data.

Closing dates of exhibitions determine the year of the exhibition. For example, Iris and Smethwick have closing dates in one year, and the exhibition in the next. Use the Closing Date on your list.

JUDGING CREDITS: Acceptance and Title credits may be applied toward Galaxy and Diamond awards for judging an EID recognized section or sections of an exhibition.

A maximum of three (3) acceptances for judging an EID recognized section of a PSA

international exhibition may be credited to three different titles.

When judging an EID exhibition with more than 1 section, up to 3 acceptance credits may be earned for each section judged, but not more than 6 in a single exhibition, regardless of how many sections are judged.

No title may have more than one judging (acceptance) credit.

No more than nine (9) judging credits may be applied to each Galaxy or Diamond application.

All judging credits for a section judging must be used in the same Galaxy or Diamond application. Judging credits may be used only once.

For Galaxy 1, only judging credits earned after receipt of your 5th star can be used.

For Galaxies 2-10 and Diamonds 1-10, only judging credits earned after receipt of the previous award can be used for the next award.

The breakout of maximum number of acceptance credits earned per panel is as follows:

- 3 - if panel consists of 3 judges;
- 2 - if 4 – 5 judges;
- 1 - if 6-10
- 0 - if more than 10.

See the sample lists for the correct format to use show your Judging Credits.
