

International Club Image Competition Rules for 2010-2011

This is the fifth year that digital files will compete alongside 35mm slides in the same competition. The following text explains the rules of entry.

Rules:

- **A club may enter six 2x2 color slides or 6 digital files in each competition: but not a combination of both. You may switch formats only in the next competition. Just for informational purposes → digital images now represent over 95% of our entries.**
- **Entries are not limited as to subject matter or treatment but they must be the work of a bona fide resident club member. The slides must be titled and must fit a standard 2x2 projector. No person may have more than two slides or two digital files entered in any one competition month, even though a member of more than one registered club. In the event of excessive entries by one person all but the two highest scoring slides or digital files entered by that person will be disqualified. Award of Merit and Honorable Mention slides or digital files may never again be entered and if re-entered will be disqualified. Identical or near-duplicate slides or digital files may not be entered in the same season. Disqualified slides or digital files will not receive points.**
- **Color Slides must be identified by title, maker's name and address, club name, corner spot for correct viewing, and must be numbered to correspond to the entry form.**
- **Digital entries must be uploaded on our webpage. Largest size 1024x768 pixels at a resolution of 300 pixels per inch.**
- **The file naming process will be done automatically when your images are uploaded on our webpage.**
- **The Closing Date for all 4 competitions is the 1st of that month. The judging club can judge the entries anytime with the Competition month. If a club's entry arrives after the deadline, the club will generally have the privilege of submitting a makeup entry in the next competition. Makeup entries from 2010 are now eligible for awards. Only 1 make-up is permitted per season.**
